# 1948 PRICE-LIST

**1882  
1948**

**66th  
Year**

**Magnolia glauca  
(Sweet Bay)**

## FOREWORD

**W**E KNOW this list is late and that the new catalogue will be still later, due to apparently unavoidable circumstances. Sorry, but we hope the delay has only served to liven your anticipation for the time when catalog, price-list and customer finally get together.

A nice lot of Roses are in the field this year, and in addition to our large assortment of standard varieties, we are happy to offer a good many of the newer and patented sorts that have been unavailable during the last two or three seasons. By all means try some of them; many are true beauties!

There seems to be an ever-increasing demand for Roses early in the fall, often in September and October. Unfortunately for the Rose-growing public who get these bushes and set them out, the mortality is usually high. It has always been and will continue to be our policy not to dig or ship our Roses until they are sufficiently dormant—ordinarily not earlier than November 15. We feel that nothing is gained by trying to rush the planting season and very frequently the percentage that live is materially reduced when this is attempted. Please do not expect replacements on Roses delivered in an off-season period contrary to our recommendations.

Although the summer has been pretty wet in spots, we are well pleased on the whole with the progress and appearance of our stock, and we are confident of our ability to please you. There may be a few items left out of this list that should be in it, so if you fail to see what you want, just write us about it. One assurance we can give and gladly—your interests are ours, your satisfaction our pride.

# RARE CAMELLIAS

GS. refers to French importations from Guichard Sisters.

**Adolphe Audusson.** (GS.) Large, semi-double flower of deep red with distinct darker-colored veins.

**C. M. Hovey** (William S. Hastie; Colonel Firey).

**Comte de Gomer.** (GS.)

**Daikagura**

**Debutante** (Sarah C. Hastie)

**Duchesse de Montpensier.** (GS.)

**Duc de Bretagne.** (GS.) Imbricated, medium size; rose-pink shading to lighter pink in the center. Good for cutting.

**Fimbriata** (Alba Plena Fimbriata)

**Fred Sander.** Semi-double; deep red, occasionally spotted with white. An unusual flower that is very desirable.

**General Lamoriciere.** (GS.)

**Giardino Schmitz.** Imbricated blooms of ruddy pink.

**Gigantea**

**Governor Mouton**

**Il Tramonto.** (GS.)

**Imperator.** (GS.)

**Jubile.** Big, semi-double, soft pink. An upright grower.

**Kellingtonia.** (GS.)

**Kumasaka**

**PRICE SCHEDULE:** For varieties where prices are not given, use the first set of prices listed thereafter.

## RARE CAMELLIAS, continued

**Kumasaka Variegated.** Peony-form; deep pink with white markings and curling center petals, showing a mass of golden stamens.

**Lady Clare** (Empress)

**Lady Hume's Blush.** Medium size, full double; beautiful shade of blush-pink, almost white. Imbricated form.

**Lady Mildred.** Large, semi-double flowers with crimson filaments. This seedling was selected at Glen Saint Mary Nurseries.

**Madame Feters.** (GS.) The imbricated flowers are a beautiful bright red.

**Madame Haas.** (GS.) Double, imbricated, rose-pink.

**Madame. Pepin.** (GS.)

**Magnoliaeflora**

**Marchioness of Exeter**

**Margherita Caleonie.** (GS.) Medium sized, double; variegated crimson, spotted and washed with white.

**Marie Morren** (GS.)

**Mathotiana**

**Mathotiana Rosea.** (GS.)

**Monsieur Paugam.** (GS.)

**Onor del Monte.** (GS.)

**President Allard.** (GS.) Imbricated flowers of pearly white banded with red.

**Reine Marie-Henriette.** (GS.) Beautiful pink specked with pure white; imbricated.

**Rev. John G. Drayton**

**Sergeant Barrios.** Large, semi-double, rosy red. Compact and upright in growth.

**Souvenir de Bahuaud-Litou.** Imbricated, flesh-pink.

**Valtavareda.** Vivid pink flowers of imbricated form.

**Victor Emmanuel**

B&B.	Each

30 to 36 in.....	13 75
3 to 4 ft.....	18 00

## STANDARD CAMELLIAS,

### Class A

**Alba Plena**

**Candidissima**

**Carswelliana**

**Centifolia Alba**

**Dunlap's Imbricata**

**Elegans** (Chandler)

**Enrico Bettoni**

**Frau Minna Seidel** (Pink Perfection)

**Geante des Battailles.** Small, peony form, variegated deep-red with white blotches. The center is a compact mass of petaloids.

**Gigantea Alba.** Large, double, white.

**Gloire de Nantes**      **Horkan**

**Gunnelli**      **Latifolia** (GS.)

**Haley's Monarch**      **Leana Superba**

**Harlequin**      **Mathotiana Alba**

**Herme**

**Monarch.** One of the handsomest of the late-blooming Camellias. Peony form; deep pink, often spotted white.

**Mrs. Anne Marie Hovey**

**Mrs. Charles Blard.** GS. Medium size, double, white. The stamens are hidden by the large, somewhat twisted petaloids.

**Mrs. William Thompson.** Large, white, semi-double.

**Pink Herme**

**Pink Star.** Semi-double, delicate bright rose-pink. Outer row of petals roundly pointed, giving a star-like appearance.

**Professor C. S. Sargent**

**Reine des Fleurs**

**Semi-Double Blush**

**Snowdrift.** One of the loveliest of Camellias and perhaps the hardiest of the whites. Perfectly formed, semi-double, pure white flowers with beautiful golden stamens.

**Standard Pink**

**Waterloo**

## SASANQUA CAMELLIAS

**Blanchette.** A single white flower pink tinted on margins which reminds one of dogwood. Very sturdy and upright, with dainty gray-green foliage.

**Briar Rose.** Soft clear pink, resembling the wild rose. Small dark green foliage and a flaring habit of growth.

**Hebe.** Single, phlox-pink flowers, freely produced. Upright, open plant.

**Mino-no-yuki.**

**Oleifera.** Very large; white petals tipped pink.

**Rosea.**

### WE USE IT HERE— RELIANCE AZALEA AND CAMELLIA FERTILIZER

In response to many requests of our customers, we are happy to offer this scientifically blended plant-food for the acid-loving plants. We recommend at least two applications a year—more if the soil is very light. A RELIANCE booklet entitled "Azaleas and Camellias" is available here on request. It gives a lot of good information about these plants and suggestions for their care.

Glen Saint Mary Nurseries Co.  
Winter Haven, Fla.

# TERMS OF BUSINESS

## LOCATION

General Office and Nurseries at Glen Saint Mary, Baker County, Florida, on Seaboard Air Line Railway, and State Road No. 1, 30 miles west of Jacksonville. Office and Citrus Nurseries at Winter Haven, Polk County, Florida. Visitors are always welcome.

## APPLYING PRICES

Orders for five (5), fifty (50), and five hundred (500) plants of one class command the 10, 100, and 1000 rates respectively. Prices herein are for the Retail trade only and cancel all previous lists and catalogues. They are based on current conditions and therefore subject to change without notice.

## CASH

or satisfactory reference must accompany all orders for immediate shipment unless the person ordering has an account. On orders booked in advance of the shipping season, 25 per cent down, with the balance due when the shipping season opens, will be required. Reserve orders are accepted only upon condition that they shall be void should injury befall the stock before shipment, from any cause not under our control. Stock held in our fields on reserve long enough to grow to a larger grade will be billed accordingly at shipping time.

## BE SURE

to state clearly when ordering how you wish shipment made—Parcel Post, Express, Commercial Truckline or Freight. Lacking this information, we will use our best judgment as to method of forwarding. On orders for shipment by Parcel Post, add 25 per cent to the list price to cover cost of packing and postage. Heavy shipments that would be expensive by Express can usually travel via Commercial Truckline nearly as quickly as by Express and for less cost. Please use our order blanks; additional ones will be mailed on request.

## SHIPPING AND PLANTING SEASON

From the middle of November to April for bare-root plants covers the average season, but weather conditions each year govern beginning and ending dates. Balled and Burlapped plants and trees may be safely moved almost every month of the year.

## SUBSTITUTION

It is our desire to furnish stock exactly as ordered, but in case varieties are exhausted, please state definitely on your order blank or in your letter if you wish us to substitute. Lacking this information, shipment will be made short—without substitution.

## GUARANTEE

We guarantee our stock to be well grown, true to name, properly packed, and shipped according to instructions. In no case shall our liability be more than the original invoice value. There shall be no nursery stock sold under a guarantee to live, except with the understanding that, if it dies, it will be replaced *as soon as possible*, at not less than 50% of purchase price. Claims for replacement must be made in writing within three months after receipt of plants.

## CLAIMS

If, by any possibility, errors should occur, they will be promptly rectified, if claim is made within 10 days after the receipt of goods. Our responsibility, except as stated above, ceases upon delivery of nursery stock in good condition to public carrier.
